BC Study Abroad

ENGLAND

University of Reading
Semester 1: September to December
Semester 2: January to March

PROGRAM DETAILS
Students are allowed to choose from a wide variety of courses offered in the arts, social sciences and natural sciences. Although classes vary in size and academic focus, all courses are taught at the University of Reading by local university professors. Participants are in the classroom with local students and other international students. Students studying abroad at Reading are limited to taking the equivalent of 12 U.S. credits, and this program is best-suited for students who have flexibility in their class requirements.

Program includes regional excursions, with destinations as varied as Edinburgh, Bath, Brighton and Windsor Castle.

HOUSING AND MEALS
The University of Reading provides the opportunity for students to experience aspects of the British student lifestyle that are inaccessible to the average visitor of England. All dorms are either a quick walk to the university, or are located near public transit routes. Most rooms are single bedrooms with shared bathrooms and common rooms. Shops, a bank, a post office and a bus route are all within walking distance as well.

Students will get approximately fourteen meals per week offered in the dining areas of each hall, as well as a supplemental meal stipend.

LOCATION
The University of Reading is located on the River Thames in the southern part of England. It is a culturally rich and welcoming town with a vibrant music scene. Reading’s cityscape shows a unique blend of old and new, with attractive streets lined with traditional red brick structures and modern commercial buildings. Students have the ability to venture out into the surrounding countryside or take a quick 30-minute train ride into central London. The campus provides an ideal setting for a modern university and a perfect environment for study abroad students to immerse themselves in the local culture and traditions.
