

Accessing your Bridgewater Network Drives on a Mac

1. While in the Finder go to “Go”
2. Select “Connect to Server”
3. In the box marked “Server Address” type the address that corresponds to the drive you wish to mount. Server addresses and drives are as follows.

Enter the following for X Drive: smb://147.138.10.11/student\$/*username*

Note: Type **your** Bridgewater username

Enter the following for J Drive: smb://147.138.10.11/courses

Enter the following for P Drive: smb://147.138.10.11/pdp

Enter the following for R Drive: smb://147.138.10.120/data

Enter the following for L Drive: smb://147.138.10.120/orgs

Enter the following for W Drive: smb://147.138.10.50/web

4. Once connected you will be prompted to enter your Bridgewater username and password.
